

BEST PRACTICE FROM DIFFERENT PERSPECTIVES

The exchange between international students and staff within the Erasmus + programme worldwide will be in the focus of our first International Staff Training Week.

In presentations the international colleagues will present their own experiences with this EU programme related to following topics:

- ⇒ Quality assurance of the selection procedures/ best practice
- ⇒ Questions of recognition of study achievements
- ⇒ Finances

The goal is to collect best practice examples by using these presentations. At the end of the week, the best experiences will be summarized in a compendium / guide.

An external speaker from the German National Agency (DAAD) will provide an overview of the Erasmus + programme line and its future development after 2020.

Furthermore, selected service units from FSU Jena (Marketing, International Office and the Faculty for Physics and Astronomy [Abbe School of Photonics]) will present their areas of work and explain specific interfaces to the Erasmus+ programme.
